FEATURES & BENEFITS

The system is mounted in a strong robust roll cage designed for hard outdoor portable use including lifting points for helicopter deployment. Supplied with an integrated lay flat hose with the mini mist/jet nozzle.

For easy portability, the system has foldable wheels and handles for transporting as well as lifting points for easy lifting.

The system can be connected to any clean water source and operated.

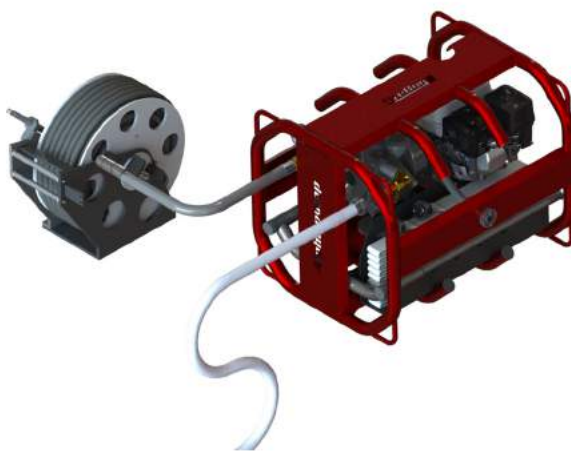

- Independent pump motor configuration allows use within any vehicle or portable bag tanks are also offered.
- Strong robust roll cage casing to allow hard use in harsh conditions
- Integrated lay flat hose for quick deployment and easy storage
- Built in transport system of extending handles and wheel
- Portable use with any clean water supply
